

**Margie and Ray Toombs**, owners of **Maid Brigade of Northeast Ohio**, offer a vapor clean system that uses a patented steam-cleaning process to disinfect hard surfaces, from tile floors to ovens; eradicates dust mites from mattresses; and gets rid of pet hair from your furniture. Maid Brigade employees are experts at what they do and are thoroughly background-checked for your confidence. Through early April, they're collecting gently used children's books during their annual book drive. This year, it benefits Akron Children's Hospital and Hands of Hope, an after-school reading program in Canton. The Canton Charge, the D league basketball team affiliated with the Cleveland Cavaliers, is partnering with Maid Brigade on the book drive. Margie and Ray will be at tonight's game, collecting books and also showing off the vapor clean machine.
